◔ Experience

Blank Street Coffee
Shift Lead

September 2021 – May 2022
New York, NY

> Maintained and operated equipment and machinery, including espresso machines, grinders and brewers while remaining cognizant of food safety guidelines.

> Led baristas at my store with transparency and empathy in order to create a more efficient and enjoyable environment for both employees and customers.

> Consistently provided excellent customer service by building a rapport with clients while preparing orders.

> Managed inventory by stocking, refilling, and ordering various coffee products.

Harlem School of the Arts
Teaching Artist

January 2018 – March 2020
Harlem, NY

> Developed curricula and taught classes for students for students that were centered around digital media, such as animation and video game design.

> Taught students in grades 6-12 various digital media skills, such as: music production, film, photography, and 3D Modeling.

> Spearheaded the development of the school's first Digital Music Production program.

⚗ Projects

NoteAblity
NoteAbility is a song guessing game that allows you to play a song on a virtual (or physical) piano!

> Created a React frontend using CSS, with a functional virtual piano that can be played via touch or keyboard.

> Utilizes a RoR backend to provide song game data, allowing users to resume games at a later point.

Synesthesia
View your recent Spotify listening history and write reviews for your favorite tracks!

> Utilized the Spotify API to authenticate the user and fetch their listening data within a Ruby on Rails backend.

> Implement a unique React frontend that utilized the ChakraUI framework.

The Ship
Make pairings of anime characters, and comment on them!

> Built a Sinatra API backend that uses Active Record to access and persist data in a database.

> Created a React frontend that interacts with the database via the API, while utilizing a blend of Material UI/CSS to create a unique looking site.
